

# **RIVERLAND FS, Inc.**

126 Public Square, P.O. Box 217, Knoxville, Illinois 61448

## **LP-Gas Metering Program**

**RIVERLAND FS, Inc.** will install an LP Vapor Meter in the customers system, then pressure check the system and re-light all pilot lights.

For existing customers, **RIVERLAND FS** will purchase any existing LP-Gas in the storage tank. All LP-Gas in the system will then be the property of **RIVERLAND FS**, until passing through the meter.

The customer will be billed monthly for the number of cubic feet of LP-Gas used since the last meter reading. Pricing and billing will be by the cubic foot for all metered service.

The customer will pay a one-time fee of \$15.00 for installation of the meter (if the customer requests the meter to be removed within one year of the installation, there will be a \$15.00 removal fee).

The customer will pay a monthly fee of \$5.00 for meter rental and upkeep.

**RIVERLAND FS** will read the meter between the 20<sup>th</sup> and 27<sup>th</sup> of each month and charge the customer \$5.00 for meter reading. The customer may save this charge by reading the meter and providing **RIVERLAND FS** with it by the 25<sup>th</sup> of each month.

The customer will continue to have the option of participating in the **RIVERLAND FS, E \* Z Pay, budget billing and forward contracting programs.**
