

# LP-GAS FORWARD CONTRACT PROGRAM

---

## Program Period

Normally, June 1, through August 31, (depends on market conditions)

## Program Objective

To allow customers to lock in the price they will pay for their fall and winter LP-Gas, during the summer, when prices are historically low.

## Program

The customer agrees to purchase a set number of gallons of LP-Gas from **RIVERLAND FS**, for delivery between September 1, and March 31, at a set price per gallon after all applicable volume, delivery and tank discounts and excluding applicable sales tax. A 5-cent per gallon cash discount will be allowed, but will not be deducted at the time the contract is written, but must be earned by paying for invoiced product by the discount date.

The price of the product purchased under this contract is firm and will not fluctuate with the market. **RIVERLAND FS requires no money down to write the contract.**

If the customer fails to take delivery of a minimum of 90% of the contracted gallons by the final delivery date, at **RIVERLAND FS's** discretion, a penalty may be assessed on the gallons not delivered, below 90%.

Any product delivered to the customer by **RIVERLAND FS** during the contract period, in excess of the contracted quantity, will be invoiced to the customer at the current price in effect at the time of delivery.

This program applies to customers with established credit only.

The Contract is subject to Force Majeure and is not transferable.
